CUTANEOUS MELANOMA

Etiology and Therapy

Cover image: Stereotactic radiosurgery and stereotactic body radiotherapy plans for melanoma metastasis. See page 103, chapter 8 for details.
CUTANEOUS MELANOMA

Etiology and Therapy

Edited by

WILLIAM H. WARD
JEFFREY M. FARMA

Department of Surgical Oncology,
Fox Chase Cancer Center,
Philadelphia, PA, USA
CONTENTS

Foreword vii
Anthony J. Olszanski

Preface ix
William H. Ward, Jeffrey M. Farma

Contributors xi

Section I: Epidemiology and Pathophysiology 1

1 Epidemiology of Melanoma 3
Natalie H. Matthews, Wen-Qing Li, Abrar A. Qureshi, Martin A. Weinstock, Eunyoung Cho

2 The Epidemiology of Cutaneous Melanoma in the White and Black African Population Groups in South Africa 23
Mary Norval, Caradee Y. Wright

3 Biomarkers in Malignant Melanoma: Recent Trends and Critical Perspective 39
Birgit Belter, Cathleen Haase-Kohn, Jens Pietzsch

4 Heterogeneity and Plasticity of Melanoma: Challenges of Current Therapies 57
Mary J. C. Hendrix, Elisabeth A. Seftor, Naira V. Margaryan, Richard E. B. Seftor

5 Ulcerated Melanoma: Aspects and Prognostic Impact 67
Marie Louise Bønnelykke-Behrndtz, Torben Steiniche
Section II: Therapy and Management

6 Clinical Presentation and Staging of Melanoma  
William H. Ward, Fernando Lambreton, Neha Goel, Jian Q. Yu, Jeffrey M. Farma

7 Surgical Management of Melanoma  
Kenneth M. Joyce

8 Radiation Therapy for Melanoma  
Wenyin Shi

9 Immune Checkpoint Inhibitors in the Treatment of Melanoma: From Basic Science to Clinical Application  
Matthew P. Rausch, Karen Taraszka Hastings

10 Nanomedicine in Melanoma: Current Trends and Future Perspectives  
Ayman El-Meghawry El-Kenawy, Carolina Constantin, Snur M. A. Hassan, Alshimaa Mohamed Mostafa, Adriana Freitas Neves, Thaise Gonçalves de Araújo, Monica Neagu

11 Short-Term and Long-Term Management of Melanoma  
Neha Goel, William H. Ward, Jian Q. Yu, Jeffrey M. Farma
